

Dear Pilots!

We all find ourselves in the unusual situation where there is a war in Ukraine causing major economical effects such as rampant inflation and hence rising prices of fuel, food, accommodation, transportation, lack of sponsors etc. Another effect of war is the insufficient number of entries that we received to organize the FAI World Yak-52 Aerobatic Championships in line with the FAI sporting code (only 3 contestants paid the entry fees). Despite the difficulties (war, small number of contestants, runaway prices of organizing such a big event) we are determined to organize the Championships in Toruń but only in intermediate category. We strongly encourage you all to take part in 3rd FAI World Intermediate Aerobatic Championships which take place 4th to 11th JUNE in Toruń, where you can participate on YAKs-52 if you wish.
Hope to see you all in Toruń

Best Regards,
Contest Director
Jerzy Makula
